SMOOTHNESS AND POROSITY OF PAPER. [1961] 12p
Order from SLA $1.60 61-10452

Trans. of [de] Papierwereld (Netherlands) 1960, v. 14, no. 11, p. 619-624; I[nstitute of] P[aper] C[hemistry]. A[bstract] B[ulletin (U. S.) 1960?] v. 31, p. 241.

DESCRIPTORS: *Paper, Porosity, Surface properties, Test equipment.

A new instrument is described that simultaneously measures smoothness and porosity. It consists of a rectangular slit filled with liquid which is moved across the paper in a definite manner. During this motion the irregularities in the surface are filled and a certain amount of liquid penetrates. With the instrument, the portions of liquid taken up by the paper because of roughness and because of penetration can be distinguished.

AMERICAN-RUSSIAN, RUSSIAN-AMERICAN HYDROLOGIC VOCABULARY. June 58 [27]p.
Order from OTS or SLA $2.60 63-13246

DESCRIPTORS: *Hydrology, *Vocabulary.

This is a vocabulary of about 300 words, most frequently used in the American and the Russian hydrologic literature. The primary purpose of the vocabulary is to make it possible for an American hydrologist with only the knowledge of Russian alphabet, to interpret the titles of Russian hydrologic papers, diagrams and tables, either to his complete satisfaction, or to determine whether a fuller translation and study of the text should be made. It will also enable him to translate, if necessary, American terms into Russian, thereby facilitating conferences, discussions and correspondence with the Russian counterparts. (Preface)
